Cables for Agricultural technology

Development and production

SAB BRÖCKSKES – your cable specialist for agricultural vehicles

The control of machines and appliances in agricultural technology set high demands on communication interfaces and bus systems. Rough environmental conditions as for example caused by weather conditions, pollution, ammonia, or microbes demand robust solutions for a reliable application. Cables are especially exposed to these adverse environmental conditions. For the laying in tractors, working machines and accessory equipment **SAB** offers reliable ISOBUS cables and systems according to ISO 11783-2. Besides the usual dimensions and sections **SAB** also offers customer specific constructions even for small production quantities from 100 m, prototypes, and samples.
